

TkFast Connects the Nation

Sheet Happens Prep is a successful and growing radio prep service that supports over 75 radio stations across the country. Owner Jeff Andrews is the Editor of Sheet Happens Prep and currently the morning drive host at Entercom's Power 93.9/Wichita. Jeff's successful business quickly outgrew his past solutions provider, and he knew more could be done to satisfy the needs of his customers and in particular to simplify the process of using his prep service.

TkFast was the perfect match for this vision. Jeff's website was seamlessly transitioned into a fully-tailored software solution, custom designed for Jeff's needs. Management modules and personalized client modules make the site user-friendly and efficient. The new completely on-line, easy to use interface increases the marketability of the Sheet Happens Prep service.

"Sheet Happens Prep is a daily, full service prep sheet for cutting edge radio talent and programmers. Our service, available for contemporary, country, active/alternative rock, classic rock/oldies, talk and urban formats, is written exclusively by Jeff Andrews, who understands your need for topical, entertaining, compelling and humorous content. All of our written material comes with MP3 audio content for quick download and instant on-air use. Most recently, Jeff was responsible for writing Premiere Radio Networks' Premiere Daily World, Premiere True Country and Contemporary Rock prep services."
