

## SECURITY

### CORE NETWORK SECURITY

- Monitor average of 2.0 petabytes of IP traffic / business day for suspicious activity
- IP addressing plan separates network elements from customer connections
- Points of presence built with multiple security zones
- Hardened infrastructure elements

### EXPERTISE AND EXPERIENCE

- More than 1,400 world-class security experts and support professionals
- 5,000+ security devices managed
- 194,000+ tokens managed

### DEFENSE-IN-DEPTH ARCHITECTURE

- Security at every layer from network to application
- Detection of traffic anomalies and cyber attacks in the early stages, enabling Internet Protect customers to take remedial action to contain risk

### SECURITY PORTFOLIO

- Personal, network and premises-based firewalls
- AT&T Internet Protect<sup>SM</sup> (predictive alerting and notification)
- Distributed Denial of Service (DDoS) defense and mitigation
- Token authentication and Public Key Infrastructure (PKI)
- Managed intrusion prevention and detection
- Anti-Spam / Anti-virus scanning
- Network Integration and Consulting
- AT&T has won more security awards than any other Network Security Provider

## INNOVATION

- AT&T and SBC companies combined own more than 6,000 patents and 7 Nobel prizes
- The two companies combined have collaboration initiatives with 90 universities globally

## COMMUNITY

- The new AT&T Foundation, the philanthropic arm of AT&T Inc., will invest more than \$60 million in philanthropic giving in 2006
- Since 1984, the former SBC Communications Inc. and the SBC Foundation have contributed more than \$1 billion to nonprofit organizations around the country. Likewise, the former AT&T Foundation has distributed grants of more than \$700 million since 1984
- The combined 250,000 SBC and AT&T Pioneers serve their communities through one of the nation's largest company-sponsored volunteer organizations
- In 2005, AT&T spent \$2.4 billion with minority, women and disabled veteran owned business enterprises representing 15 percent of its procurement base

## ACCOLADES

- Fortune Magazine has named AT&T "America's and World's Most Admired Telecommunications Company" (2006)
- "A driving force in the industry" (Ovum, 2005)
- AT&T is the recipient of the "2006 Frost & Sullivan Vertical Market Penetration Award"
- "Overall, AT&T offers the strongest MPLS service lineup" (Forrester, 02/06)<sup>1</sup>

1. AT&T Leads in North American MPLS Services, Forrester Research, Inc. 02/16/2006

At-A-Glance

# The New AT&T

## ABOUT THE NEW AT&T

- We rank among the largest telecommunications companies in the world
- More than \$1 billion in 2004 spent on process improvements
- Cash flow from operating activities (2005) = \$13 billion
- Among the strongest balance sheets in telecom – “A” credit rating, history of prudent financial management
- If the new AT&T were ranked among the full 2005 Fortune 500, it would place 12th on the full U.S. list and 24th on the full global list
- Serves virtually all Fortune 1000 companies and all S&P 500 companies with IP services
- Recognized as a top “corporate citizen” by Forbes and Business Ethics Magazine (2004)
- Solid reputation based on 120 years of excellence, local presence

## NETWORK

- Advanced global IP/MPLS-based network
- Global backbone Network averages 5.4 petabytes per business day\*
- Dedicated access to MPLS services from more than 1,500 service nodes in 127 countries\*\*
- Over 117,000 MPLS customer ports\*
- 30 global Internet Data Centers\*
- Global Network reach with 523,000 worldwide route miles
- Network availability guarantees of up to 99.999%
- Average 13% or better latency compared to key competitors, near-perfect packet delivery
- 4 million users of remote access client software

## PRODUCTS AND SERVICES

### VOICE

- The nation’s largest provider of local and long distance service (48.8 million switched access lines in service)
- AT&T can terminate voice traffic in all countries worldwide
- Owns 60% of Cingular Wireless®, the nation’s leading provider of wireless voice and data services (55.8 million customers)

### VOIP

- Interoperability agreements with the world’s five leading IP-PBX vendors; large U.S. reseller of Cisco Systems equipment

### IP & IP VPN SERVICES

- Declared VPN industry leader by three top analyst firms (Forrester Research, In-Stat MDR, IDC)

### ACCESS AND LOCAL SERVICES

- Broadband DSL – Over 7.4 million lines in service
- Access to more than 33,000 Wi-Fi hot spots in 74 countries\*
- Ethernet services hold pole position in the Ethernet services market (Frost & Sullivan, 2005)
- Wireless – 55.8 million subscribers, nation’s largest digital voice and data network and largest global presence in more than 170 countries

### DATA/MANAGED DATA SERVICES

- Frame Relay and ATM services retain the top U.S. frame relay and ATM market position (Vertical Systems, 2005)
- AT&T’s products and services are delivered through a continuum of management options ranging from monitoring and visibility to full lifecycle management

## SERVICE AND SUPPORT

### NETWORK ADMINISTRATION

- Service-specific capabilities – network topology maps, performance reporting, ticketing and ordering
- Direct order-entry prevents mistakes and speeds circuit installation by 30% or more

### END-USER TOOLS

- One of the strongest and most secure form of access available – AT&T Global Network Client provides a single sign-on and intelligent connection features to automatically identify the preferred access method

### AT&T BUSINESSDIRECT® WEB PORTAL

- Supports 700,000 users with more than 300 applications and more than 2.9 million transactions monthly
- Industry’s highest satisfaction rate (Yankee Group)
- Voted “Best-In-Class” by CIO Magazine in 2005 and winner of two consecutive Innovation Awards from Customer Solutions Interactive Magazine (2004 and 2005)

## GLOBAL

- Remote access from more than 44,000 points in 149 countries\*\*
- Listed as “Leader” in all four of Gartner’s regional Network Service Provider “Magic Quadrants”
- Leadership in international data and voice services noted by Yankee Group (2005)

\* These statistics are as of 05/31/06. All others are as of 03/31/06, unless noted otherwise

† All countries served including satellite and leased line extension
