

**Because Business is on the Line**

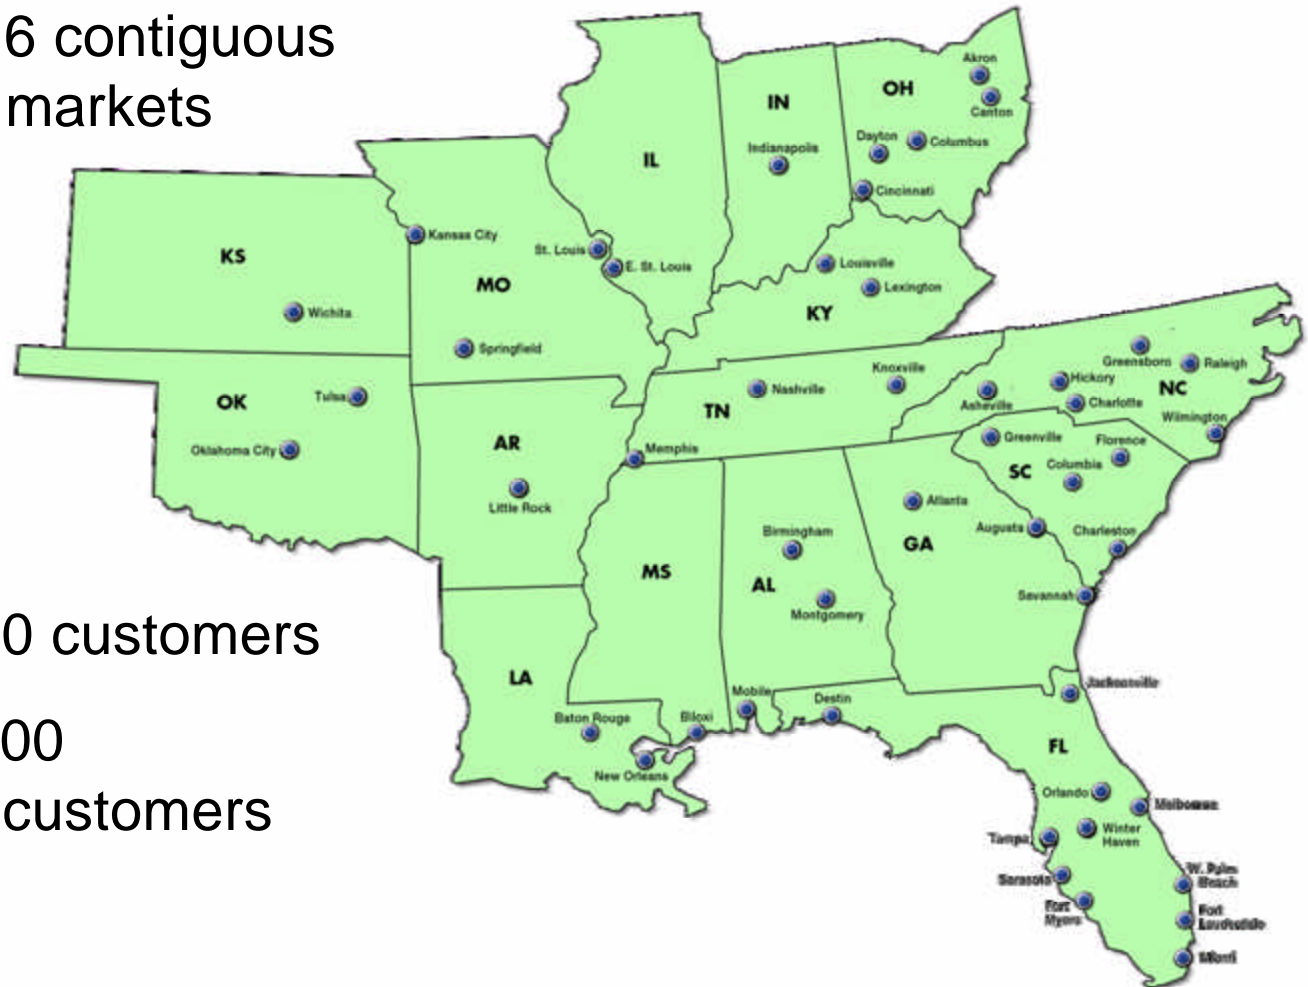

**For every business we serve  
to enjoy superior  
data and voice solutions,  
as well as customized  
and hassle-free service.**

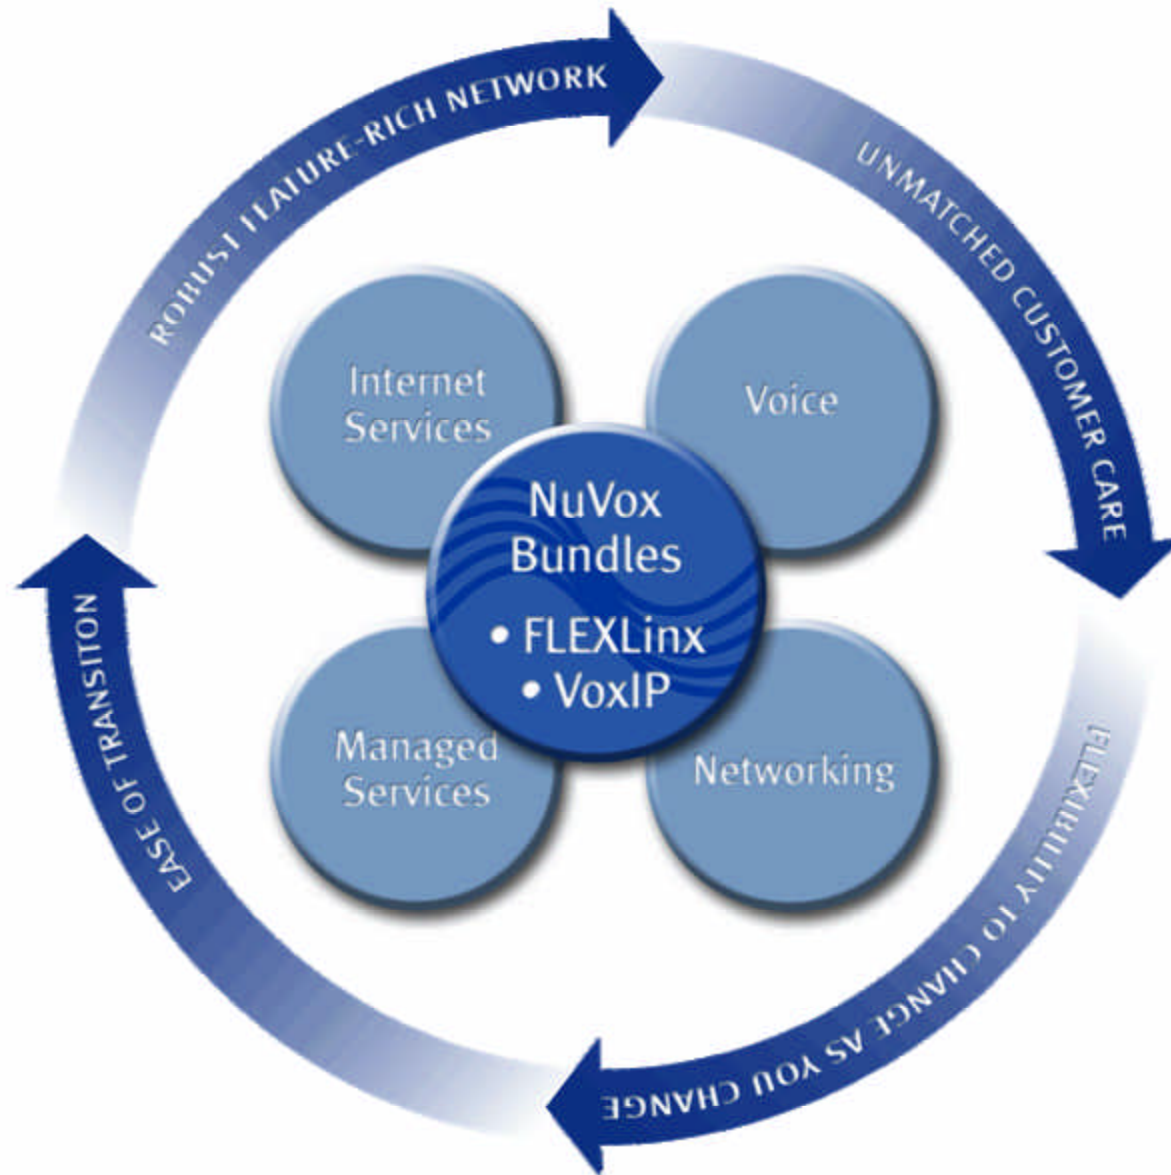

- Leading sales and operational presence in 16 states and 48 markets across the Southeast and Midwest
- Bundled solutions, including:
  - > *Internet services*
  - > *Network services*
  - > *Voice services*
- Facility-based network applications
- Proven provisioning processes
- World-class Sales Engineering, Account Management, and Customer Care
- Financially strong: Free cash flow positive since 2004

# Super Regional Presence

- Coverage in 16 contiguous states and 48 markets
- Over 740,000 lines installed
- Run rate exceeding \$340 million
- Serving 43,000 customers
- More than 5,000 multi-location customers

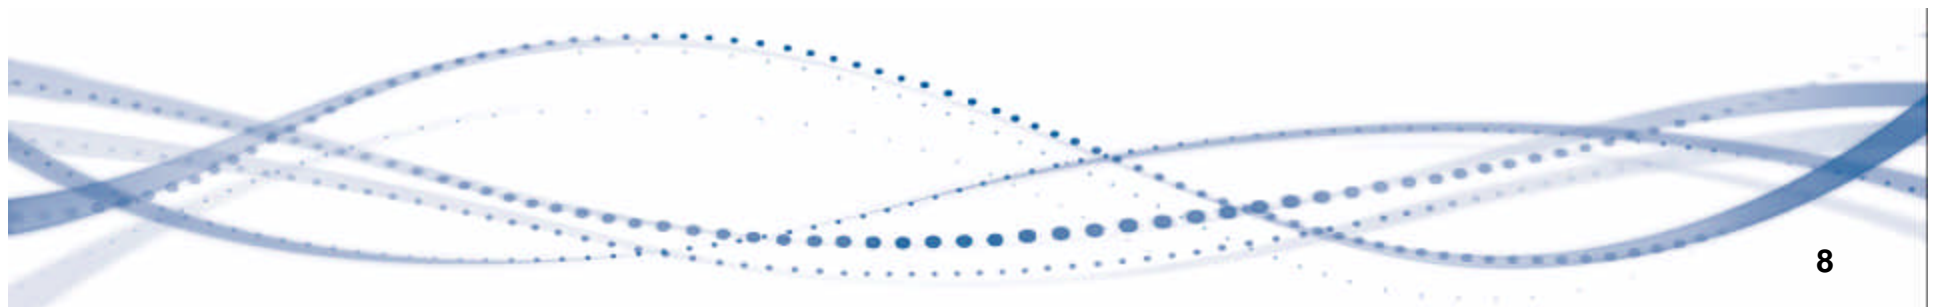

- While conventional telecommunications require separate channels for voice and bandwidth for Internet, VoIP enables the channels on your T1(s) to dynamically switch from Internet bandwidth to voice service as your call volume needs dictate.
  - > **Flexibility.** *VoIP offers your business a combination of voice, Internet, and networking services.*
  - > **Dual Usage.** *Channels on the T1 alternate “on demand” between voice and Internet.*
  - > **Voice Prioritization.** *Both calls coming into and going out of your business always receive priority.*
  - > **Robust Feature Packages.** *Select from feature packages that include free long distance, reservationless conferencing, and calling card minutes as well as local calling features, messaging services, web hosting, email, managed Internet security, and much more.*

- Facilities-based network serving 16 states
- Network specifics:
  - > *28 Lucent, Nortel, and Siemens voice switches*
  - > *43 Cisco ATM switches*
  - > *320 end office collocations*
  - > *Sonus VoIP LD networks*
  - > *SONET Architecture*
  - > *SS7 Network*
  - > *MPLS compliant*
  - > *Internet connections to AT&T, UUNet, Global Crossing, and WilTel*
