NuVox Communications: Your Provider of Choice

NuVox Communications is a fully integrated communications company providing a powerful set of business solutions for its customers in the Midwest and Southeast. Our mission is to deliver superior broadband telecommunications services to meet your business' individual voice, data, and security requirements.

NuVox provides communications services to more than 43,000 customers in 48 markets in 16 states, with more than 740,000 access lines in service. NuVox has distinguished itself from telecommunications competitors by not only delivering a valuable package of communications services but by doing so with higher quality of service, faster installation, and more attentive customer care.

Robust Products and Services

NuVox's signature product offering, FLEXLinx, delivers a high-value bundle of services with the flexibility to precisely meet the needs of your business. Select any combination of local, long distance, Internet, and private networking along with a full suite of enhanced services to capitalize on new business opportunities.

Protect your business assets with SecureLock, a group of security products which offer protection from common computer problems such as viruses, suspicious emails, spam overload, email capacity issues, and loss of important files because no back-up system is in place.

We also offer a host of enhanced services including managed Internet security services, advanced networking solutions, reservationless conferencing, web design, web hosting and domain name services, international long distance, messaging services, and much more.

Strong Financial Base

NuVox's reliable network, quality product set, and sound delivery strategy have fueled strong growth since our founding in 1997. The following results demonstrate the financial strength of the company:

- ▶ NuVox's current annualized revenues total \$330 million.
- ▶ Since April 2004, NuVox has posted sustained positive free cash flow.
- ▶ NuVox has endorsement of a number of the most successful telecommunications investors in the country including: Kohlberg, Kravis, Roberts & Co.; Wachovia Capital Partners; MC Venture Partners; Goldman Sachs; Quadrangle; JP Morgan Partners; JH Whitney; and Columbia Capital.
